

Plone Tuneups

Do you have a Plone CMS site in need of maintenance? Are you worried you are falling behind on version updates and security patches? If our comprehensive support plans are more than you need, Jazkarta's quarterly Plone Tuneups may be just right.

Our Tuneups consist of 5 hours of pro-active Plone maintenance. We check your site against best practices, upgrade components, check log files and configurations, and make sure the site is performing properly. If time allows, we can also make minor enhancements that you request.

The Jazkarta team has been working with Plone since 2004 and knows how to get the most out of the system. We employ some of the leading engineers in the Plone community, with many combined years of experience architecting, developing, theming, troubleshooting, tuning, and optimizing Plone sites.

Maximize your investment in your Plone site by letting the experts keep it up to date.

BENEFITS

- Keep your software up to date
- Make sure you are adhering to best practices
- Sanity check your site's performance
- Gain access to expert Plone developers
- Position your site for future evolution

WHAT IS INCLUDED

- Best practice scorecard
- Security patches
- Minor Plone version upgrades
- Upgrades of up to 5 add-on products
- Performance checkup

PER TUNEUP	PER YEAR
One 5 hour Tuneup	Four 5 hour Tuneups, one per quarter
\$875	\$3,325

Jazkarta reserves the right to change these rates. Major version upgrades are not included. Contact us for a quote for Tuneups of more than 5 hours.

About Jazkarta

Jazkarta was founded in 2004 to build web applications using open source technologies. We are experts in Plone, Zope, Python, and related technologies. We provide consulting services, training, and support.
